EMPLOYMENT HISTORY

Nov 2025	Full Stack Developer, Freelance	Buenos Aires
End-to-end development of multiple fullstack projects for clients, delivering responsive web applications and MVPs in short cycles (2–6 weeks). Built React frontends, Node.js/Express backends and PostgreSQL databases; designed and implemented RESTful APIs, authentication, and integrations with thirdparty services. Implemented CI/CD pipelines and automated testing to improve release reliability; optimized performance and UX through code refactors and asset optimization. Collaborated directly with clients to gather requirements, prioritize features, and provide ongoing maintenance and support.		
Jan 2023 — Oct 2025	Frontend Developer, Freelance	Buenos Aires
Delivered 50+ responsive UI designs and highfidelity prototypes for web and mobile clients, emphasizing usability, accessibility, and modern visual systems. Translated user research and stakeholder requirements into intuitive interfaces and reusable design components. Collaborated with engineering teams to implement designs using React and component libraries, optimized frontend performance, and ensured consistent, pixelperfect experiences across devices.		

EDUCATION

Jan 2022	Técnico Universitario de Programación , Universidad Técnica Nacional	Tigre, Buenos Aires
Ongoing technical degree focused on software development. Completed coursework in algorithms, data structures, databases, web development and software engineering. Developed multiple fullstack projects applying JavaScript (React, Node.js/Express) and PostgreSQL; implemented RESTful APIs, authentication and basic CI/CD workflows. Collaborated in multidisciplinary teams using Git and Agile practices, producing clientfacing prototypes and MVPs.
